### The Festival Store

Fine honey and other products by The Sinsila Bee's Women are waiting for you in the festival store. Get your shopping for the holidays done, and support the sweetest project around while you are at it.

In the store, you will find biodynamic honey jars in different sizes, honey natural skin care products, plants, "The Year in the Garden" Calendar and more.

**Throughout the festival "The Jerusalem Food Rescuers" will set up a stand of salvaged produce. We invite you to bring a bag and take amazing fruits and vegetables home with you.**

## Gag Eden Rooftop Festival 2023

This is not a festival about rooftops. It is a festival about the possibility of reinventing the city itself. of adding the ground space that is in such shortage, and to dream a reality of abundance for all of us. This year, we are celebrating the new rooftops that joined the city center on top of the art schools, and the brave decision of the Jerusalem Municipality, which together with us implemented the "program for tapping the potential of urban rooftops." Thanks to this initiative, in the upcoming years, one million meters of rooftop wilderness will be transformed into valuable green havens.

And above all, we are celebrating the fact that we are no longer alone, lone madmen on the roof – but a part of a growing and optimistic movement of people from all sectors, religions, sexes, and genders that come together to create the spaces we are missing, the realms of healing that the city and we need.

Join us for three days in which we will make and get to know the city we deserve.
